

John Innes Centre

Unlocking Nature's Diversity

# Uncorking the **Genetic GINie** for British crops

## **Defra's Genetic Improvement Networks** sharing learning from the first ten years

**Chair:** Anna Hill, Presenter of BBC Farming Today

**Keynote Speaker:** George Eustice MP, Minister of State  
for Farming, Food and the Marine Environment

**Speakers:**

**Jack Watts**, Agriculture & Horticulture Development Board (AHDB)  
Market Intelligence

**Peter Werner**, British Society of Plant Breeders Ltd (BSPB)

**Professor Ian Bancroft**, Oil Seed Rape GIN (OREGIN)

**Professor Kim Hammond-Kosack**, Wheat GIN (WGIN)

**Dr Claire Domoney**, Pulse Crop GIN (PCGIN)

**Professor Brian Thomas**, Vegetable GIN (VeGIN)

The John Innes Centre is an international independent centre of excellence in plant science and microbiology, researching crop yield and crop disease to enhance global food production.

We are pleased to host this event on behalf of Defra.

**John Innes Centre**

Colney Lane  
Norwich, NR4 7UH

**Monday 22 February 2016**

9am-3.30pm
